Brief Explanation of the Three Website Images

This guide explains the three different webpages shown in the original PDF in simple language. Read the steps in order and use the screenshots on the previous pages as references.

Image 1 — My Portfolio Website (Original PDF pages 1–2)

A portfolio website introduces a person and shows their skills, projects, interests, and contact details.

Step 1: Header and navigation

At the top, “My Portfolio” is the website title. The About, Skills, Projects, and Contact links help visitors move to different sections.

Step 2: About Me

This section introduces the student and gives a short education detail: B.Tech CSE.

Step 3: Technical Skills

This section lists skills such as HTML, CSS, C, and Python. It quickly tells visitors what the student can do.

Step 4: Projects and Achievements

This section mentions projects, hobbies, and a resume link. It gives examples of the student’s work and interests.

Step 5: Contact and footer

The Contact Me section displays an email address. The footer at the bottom shows the copyright text.

Easy summary: In short: a portfolio website is used to present your profile, skills, projects, and contact information.

Image 2 — College Information Website (Original PDF page 3)

This webpage gives students and visitors basic information about a college.

Step 1: Navigation bar

Home, Courses, Admissions, and Contact appear at the top. These links help visitors find important sections.

Step 2: College banner

The large blue area shows the college name, “DR.RVR NRI Engineering College,” and a welcome message.

Step 3: Information cards

The cards are arranged in rows so information is easy to scan.

Step 4: Departments and courses

The Departments card lists branches such as CSE, ECE, EEE, AIML, and IT. The Courses card lists B.Tech and M.Tech.

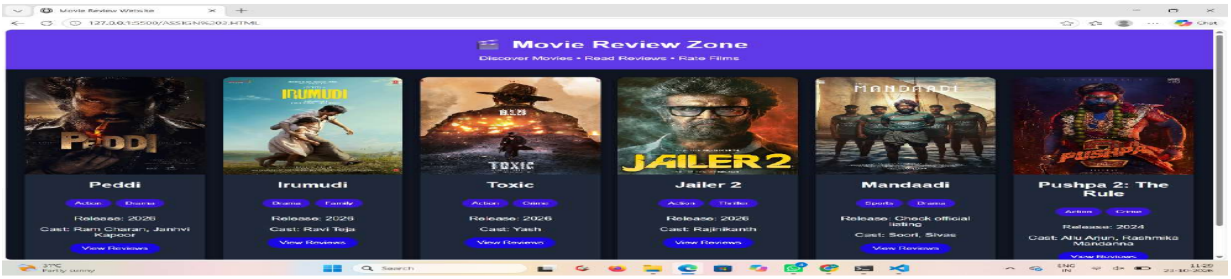

Step 5: Faculty, facilities, admissions, and contact

The remaining cards mention experienced teachers, library/labs/sports, admission information, and an email contact.

Easy summary: In short: a college website organizes academic and campus information so visitors can find it quickly.

Image 3 — Movie Review Zone (Original PDF pages 4–5)

This webpage displays movie cards with posters and short review information. The screenshot continues onto the next PDF page.

Step 1: Website heading

The purple header says “Movie Review Zone” and gives a short description: discover movies, read reviews, and rate films.

Step 2: Movie posters and titles

Each card starts with a movie poster and title, for example Peddi, Irumudi, Toxic, Jailer 2, Mandaadi, and Pushpa 2: The Rule.

Step 3: Genre and details

Small labels show genres. The cards also show release information and cast details where provided.

Step 4: View Reviews button

The button is intended to let a visitor open or view reviews for that movie.

Step 5: Synopsis

The lower part of each card gives a short description of the movie’s story.

Step 6: Positive and negative points

Green boxes list positive points, while red boxes list possible negative points. This helps readers compare opinions.

Step 7: Footer

The bottom of the page contains the website name and copyright notice.

Easy summary: In short: a movie review website presents movies in cards and helps visitors compare story details and review points.
